

Otolaryngology

LANCE R. MEYERSON, M.D., F.A.C.S.

PERFUME, COLOGNE AND SMOKE FREE POLICY

Allergic and asthmatic patients, as well as those with other conditions, report that certain odors, even in the smallest amounts, can trigger an attack.

Due to the health concerns arising from exposure to scented products, our office has a policy to provide a scent-free environment for all our patients.

Please make sure to refrain from the use of:

- Scented hand creams or body lotions
- Perfumes or colognes
- After-shave lotions
- Clothing that carries residual or lingering scents or the smell of tobacco smoke

Non compliance with this policy may result in your appointment being rescheduled.

Thank you for your understanding and cooperation as we strive to best serve the needs of all our patients.

By signing below, you acknowledge that you have received this notice and understand this policy.
